RESPECT ENVIRONMENT AND SAFETY

Each of our products has been planned and made to meet the latest European standards regarding quality, safety and respect for environment. The use of production processes with low environmental impact, decreased emission of toxic substances and a considerable reduction in energy consumption are immediate answers to problems of a world in constant evolution.

The range is vast, extremely high quality and probably the most versatile in the market - anything is possible in terms of scale and design. Throughout the world Novellini creates inspiring bathrooms that appeal to individuals at home, via our merchant partners. And, working alongside architects and designers, we create bathroom environments that complement the home, creating a tranquil space promoting Well-being within the living environment.

GOLD AVAILABLE ON SPECIAL REQUEST ONLY

aluminium

PVD CHROME FINISH

This surface treatment is exclusive to Novellini, offering a superior bright coating, which is durable and anti-limescale, and truly matches the Chrome finishes found on brassware and shower equipment. Novellini's PVD Chrome surface treatment uses an Environmentally Friendly process that is part of a 100% Zero Emission integrated production cycle.

ANTIBACTERIAL COATINGS

Silver and Zeolite is added to the PVD Chrome Finish to add antibacterial properties to Novellini's aluminium shower surfaces.

Laboratory tests on Novellini PVD Chrome prove a significant reduction in the proliferation of common bacteria such as Staphylococcus Aureus, MRSA and Escherichia Coli, when compared with traditional aluminium surface treatments.

CERTIFICATE OF MATERIAL EXCELLENCE

awarded to our chromed profiles

glass

TEMPERED GLASS

Glass sheets ranging from 4-8mm thickness are heat treated to create a product that is 3x stronger than untreated glass and that if broken will break in a safe manner.

CRYSTAL CLEAR TREATMENT

All Novellini clear glass has this non-stick silicone based coating applied to the internal side, this is heat treated to create a full long-lasting chemical bond.

To maintain a limescale and streak-free finish, with anti-bacterial properties, a simple wipe is sufficient; cutting out the need for environmentally harmful harsh chemicals and detergents.

3 YEAR GUARANTEE

Designed and manufactured in **ITALY**

LUNES

Effective, easy to install and reliable, Power shower proof due to powerful magnetically closing doors.

- 1 Chrome frame work 2 Crystal Clear glass
3 60mm adjustment easy to install 4 Powerful magnets for strong closing

TREATMENT

CRYSTAL CLEAR TREATMENT
Leaves glass easy to clean.
Does not support the growth
of bacteria and scale.
Only on clear glass

PVD CHROME FINISH
Zero emission production
integrated cycle,
100% environmentally friendly.
Antiscale, antibacterial, durable
and long lasting shine.

HOW TO CHOOSE YOUR PRODUCT USING THE CODES:

MODEL LUNES O CAN BE INSTALLED IN RECESS OR IN COMBINATION WITH A SIDE PANEL LUNES F.

- If combined, the Lunes F must have at least the same dimensions as the door (better if it is larger)- this grants a full opening of the door.
- If installed in recess, the depth of the alcove must have at least the same dimension as the door (better if it is larger).

HOW TO TAKE THE MEASUREMENTS

Take the measurements from wall to the external edge of the shower tray. Dimensions must be taken once the walls are finished and tiled, according to the above drawings.

Take the measurements from wall to wall at the bottom, at the top, in the middle and use the smallest. Dimensions must be taken once the walls are finished and tiled, according to the above drawings.

YOUNG

The perfect choice when creating your new bathroom, Stylish, Practical and Engineered to last. Suitable for both Tray and Wetroom installations. Young doors open inwards as well as outwards, enabling you to fold the shower enclosure back when not in use - great for saving space in smaller wetrooms.

- ① Adapt for tray "Standard tray installation"
- ② Deeper seal available to order as extra for wet-room tiled floor situation (see page 53 for details)
- ③ Rise and fall metal hinges for water management and quality movement
- ④ Soft close power shower magnets

TREATMENT

CRYSTAL CLEAR TREATMENT
Leaves glass easy to clean.
Does not support the growth of bacteria and scale.
Only on clear glass

PVD CHROME FINISH
Zero emission production integrated cycle,
100% environmentally friendly.
Antiscale, antibacterial, durable and long lasting shine.

HOW TO TAKE THE MEASUREMENTS

Take the measurements from wall to the external edge of the shower tray. Dimensions must be taken once the walls are finished and tiled, according to the above drawings.

Take the measurements from wall to wall at the bottom, at the top, in the middle and use the smallest. Dimensions must be taken once the walls are finished and tiled, according to the above drawings.

ZEPHYROS

Anything is possible in terms of design with Zephyros, with the widest choice of glass and frame finishes. with its clean square lined frame work complemented by technical solutions for every day use.

- 1 Metal Rollers, Easy to adjust and maintain
- 2 Uv bonded hinges (model S)
- 3 Solid metal handle
- 4 Grey smoked glass for privacy
- 5 Nickel and Matt Black frame

TREATMENT

CRYSTAL CLEAR TREATMENT
Leaves glass easy to clean.
Does not support the growth
of bacteria and scale.
Only on clear glass

PVD CHROME FINISH
Zero emission production
integrated cycle,
100% environmentally friendly.
Antiscale, antibacterial, durable
and long lasting shine.

ROSE

COLLECTION *elysium*

Elegant, clean, modern, linear semi-frameless design. 200 cm in height, making it perfect for low profile trays and tiled floors. Supplied as standard with the unique Rose cut-glass handle for that final elegant touch.

- 1 Crystal Glass handle.
- 2 Quality components
- 3 UV bonded components that are low maintenance.
- 4 Minimal design.

TREATMENT

CRYSTAL CLEAR TREATMENT
Leaves glass easy to clean.
Does not support the growth
of bacteria and scale.
Only on clear glass

PVD CHROME FINISH
Zero emission production
integrated cycle,
100% environmentally friendly.
Antiscale, antibacterial, durable
and long lasting shine.

HOW TO TAKE THE MEASUREMENTS

Take the measurements from wall to the external edge of the shower tray. Dimensions must be taken once the walls are finished and tiled, according to the above drawings.

Take the measurements from wall to wall at the bottom, at the top, in the middle and use the smallest. Dimensions must be taken once the walls are finished and tiled, according to the above drawings.

KUADRA

Extremely high quality and robust construction but with an elegant design
 Created for all bathroom environments that will compliment the home.
 At 2m in height Kuadra is perfect for low profile or level access tray installation.

- 1 UV bonded metal hinges that are maintenance free
- 2 Semi-framed details for design and function
- 3 Robust stylish metal handle
- 4 8mm tempered safety glass

With Crystal clear treatment helping to keep the glass clean and clear for much longer

TREATMENT

CRYSTAL CLEAR TREATMENT
 Leaves glass easy to clean.
 Does not support the growth
 of bacteria and scale.
Only on clear glass

PVD CHROME FINISH
 Zero emission production
 integrated cycle,
 100% environmentally friendly.
 Antiscaling, antibacterial, durable
 and long lasting shine.

HOW TO TAKE THE MEASUREMENTS

Take the measurements from wall to the external edge of the shower tray. Dimensions must be taken once the walls are finished and tiled, according to the above drawings.

Take the measurements from wall to wall at the bottom, at the top, in the middle and use the smallest. Dimensions must be taken once the walls are finished and tiled, according to the above drawings.

DIAMANTI

COLLECTION *lysium*

Enclosures have an attractive, clean-line design, suitable for shower tray and wetrooms. They are designed for distinctive bathroom interiors, which require greater scope than that provided by conventional products, and yet are simple to install and maintain the range benefits from seamless joints and Stainless Steel components for lifetime durability.

- 1 Factory applied uv bonded glass on glass corner joint
- 2 Durable stainless steel rails that will last a lifetime
- 3 Solid chromed metal handle

TREATMENT

CRYSTAL CLEAR TREATMENT
Leaves glass easy to clean.
Does not support the growth
of bacteria and scale.
Only on clear glass

PVD CHROME FINISH
Zero emission production
integrated cycle,
100% environmentally friendly.
Antiscale, antibacterial, durable
and long lasting shine.

HOW TO TAKE THE MEASUREMENTS

Take the measurements from wall to the external edge of the shower tray. Dimensions must be taken once the walls are finished and tiled, according to the above drawings.

Take the measurements from wall to wall at the bottom, at the top, in the middle and use the smallest. Dimensions must be taken once the walls are finished and tiled, according to the above drawings.

A true Icon with a frameless modern uncompromising design by Marco Pellici, featuring beautifully engineered elegant components that will offer a lifetime of service

① Hinge interior view with adjustment ② Hinge exterior view
 ③ Overlapping glass detail ④ Handle and hinges design Marco Pellici

TREATMENT

CRYSTAL CLEAR TREATMENT
 Leaves glass easy to clean.
 Does not support the growth
 of bacteria and scale.
Only on clear glass

PVD CHROME FINISH
 Zero emission production
 integrated cycle,
 100% environmentally friendly.
 Antiscaling, antibacterial, durable
 and long lasting shine.

design Marco Pellici

HOW TO TAKE THE MEASUREMENTS

Take the measurements from wall to the external edge of the shower tray. Dimensions must be taken once the walls are finished and tiled, according to the above drawings.

Take the measurements from wall to wall at the bottom, at the top, in the middle and use the smallest. Dimensions must be taken once the walls are finished and tiled, according to the above drawings.

KUADRA SHOWER PANEL (8mm Glass) H & EVO SUPPORT SYSTEM

The minimalistic and essential modular system for shower spaces

The range Kuadra H in combination with the new EVO fixing system allows you to create shower spaces selecting between various glass wall solutions and support bars

TREATMENT

CRYSTAL CLEAR TREATMENT
Leaves glass easy to clean.
Does not support the growth
of bacteria and scale.
Only on clear glass

PVD CHROME FINISH
Zero emission production
integrated cycle,
100% environmentally friendly.
Antiscale, antibacterial, durable
and long lasting shine.

GO

Go panels have an attractive, clean-line design, suitable for wet floor solutions and equally well suited to shower tray installations. They are designed for distinctive bathroom interiors, which require greater scope than that provided by conventional products, and yet are simple to install, operate and maintain.

- 1 Strong anchor fixings for safety 2 Safety glass to the highest European standard UNI EN 14428
3 Strong robust components engineered to the highest standards 4 Handle options for ease of use

TREATMENT

CRYSTAL CLEAR TREATMENT
Leaves glass easy to clean.
Does not support the growth
of bacteria and scale.
Only on clear glass

PVD CHROME FINISH
Zero emission production
integrated cycle,
100% environmentally friendly.
Antiscale, antibacterial, durable
and long lasting shine.

HOW TO TAKE THE MEASUREMENT

Dimensions must be taken from the tiled wall to the external edge of the bathtub according to this drawing.

EFFECTIVE AND INVISIBLE

Shower Space Wetroom Floor Drainage and Waterproofing System - for stylish barrier free showering

- 1 Modern design perfect for large tiles.
- 2 Quattro deck: four way drain and trap.
- 3 360° rotation for easy installation in every condition.
- 4 Height adjustable 67mm - 110mm linear drain

WET ROOMS

WET ROOMS

What is a Wetroom?

At Novellini we understand that you desire something more individual than just a shower room. That's why we've created a comprehensive wetroom and glass collection that features a range of both stylish and practical solutions for your home.

Our wetrooms offer all the benefits of a walk-in shower, combined with the protection offered by a shower screen or enclosure, allowing you to create a contemporary, luxurious feel to any bathroom.

Using the available space in an efficient and uncluttered manner allows you to create a truly individual showering experience, limited only by your imagination.

Peace of Mind

Our designers and engineers work with one common goal: to design and manufacture wetroom solutions that are fully integrated. From the hidden technology under the wetroom floor, to our beautifully designed glass screens and enclosures.

Lifetime Guarantee

All of our wetroom products are covered by our Novellini Lifetime Guarantee.

The Complete Package

We offer wetroom solutions for both timber and concrete floors with all systems encompassing the four key components of a wetroom:

- 1 Gradient
- 2 Drainage
- 3 Waterproofing
- 4 Glass

Key aspects of a Novellini Wetroom

1 Gradient

It is important to ensure that the floor of a wetroom has sufficient gradient in order for the water to drain away without forming puddles. Our system offers a choice of pre-formed, engineered slopes guaranteeing a perfect gradient every time.

2 Drainage

Whether you desire a contemporary linear drain or a more traditional square outlet you need to be sure that the drain is capable of taking away sufficient water to keep up with the flow from the shower head. Our drains offer the choice of an additional trap, therefore ensuring sufficient drainage is available.

3 Waterproofing

It is essential to ensure your wetroom is correctly waterproofed. All of our membranes are easy to apply and are backed up by our Lifetime Guarantee, offering complete peace of mind.

4 Glass

Our range of screens and enclosures offer almost unlimited choice, from the simplicity of a single screen right through to our full enclosures and multi-screen options.

► Choosing your floor style

The secret to a successful wetroom

The wetroom Deck

Underneath the floor tiles, the wetroom 'Deck' ensures the success of your shower area.

The Deck slopes gently towards the drain, removing shower water from the wetroom. It's so subtle you won't even know it's there.

Duo - for large tiles

The benefits of a Duo Linear Deck

The Duo Deck, with its contemporary linear drain, is perfect for 'large format' tiles, as there are fewer tile cuts required and hence fewer grout lines.

The large tiles run seamlessly from the Deck area throughout the remainder of the wetroom.

For Mosaic tiles - Quattro

The benefits of a Quattro Deck

The Quattro Deck, with its more traditional square drain, is better suited to smaller 'Mosaic' tiles as the tiles blend more sympathetically into the shape of the Deck.

The Mosaic tiles on the Deck area can be complemented with a larger tile throughout the remainder of the wetroom.

► Choosing a layout to suit your room **Corner, alcove or wall layout?**

Selecting a layout

The layout of your shower room will determine the glass option required. Typically this will be either a Corner, Alcove or Wall Layout. For the Corner Layout we provide a range of options from the minimalist single panel to the complete enclosure. For the Alcove there is a choice of either a minimal screen with pivot or a single door (with a fixed panel if required). For the Wall Layout we provide a choice of fixed screens with optional side panels.

How wide should a screen be?

To keep water within shower area A, a minimum of 100cm is acceptable, but 120cm would be preferable. Your glass choice will also be affected by area B which is the amount of aperture you need to enter the shower area. If space is limited, a Kuadra H2 (p134) screen with pivot offers a smaller fixed panel with enhanced shielding.

1. Corner Layout

For simplicity, select a single glass screen (Kuadra H) but ensure the width of the screen is sufficient to contain the water spray. For more control, choose a screen with a pivot (Kuadra H2) which deflects more water back into the shower area.

Combine screens to form your (Multi-screen) enclosure or choose a Young enclosure to completely contain the water and retain heat within the shower area.

Enclosure

Young
See p42

2. Alcove Layout

Where your shower area is within an alcove, we provide a minimal screen with pivot (Kuadra H2) or a single door (with fixed panel if required) (Young).

3. Wall Layout

Create the feeling of space with a wall layout - perfect for a 'dual' shower. Kuadra Wall features different screen widths along with options for fixed side panels.

Timber Floor - Guidelines

The Novellini wetroom for Timber Floors explained

Introduction

Our range of pre-formed shower Decks has been developed specifically to allow the installation of a level floor wetroom on a timber floor.

Available in a range of sizes, the Deck has a pre-formed engineered slope, ensuring that water from the shower is directed towards the integral drain, guaranteeing a perfect gradient every time.

Novellini Wetroom floor systems are suitable to be installed in combination with electric underfloor heating (max specification 150watts/sq metre).

Typical timber floor build-up

The Drain and Deck are fixed to sheets of plywood held in place between the floor joists by battens.

The Deck is covered by a waterproof Floor Membrane supplied as a Floor Membrane Kit.

The wall is sealed with a waterproof Wall Membrane.

The internal corner of the wetroom is protected using a Pre-formed corner, while the Wall-Floor horizontal joints and Wall-Wall vertical joints are sealed with reinforcing tape.

Three simple steps to order your Timber Floor solution

Duo Deck

Two-way fall with linear drain

Quattro Deck

Four-way fall with square drain

1 Deck & Drain

The pre-formed engineered slope on all Decks guarantees a perfect gradient every time.

Choose either the Duo Deck with Linear Drain for a two-way fall or the Quattro Deck for a four-way fall. Both feature efficient swivel multi-directional waste outlet for ease of installation.

Tilesafe

Floor Membrane Kit

Floorsafe

Floor Membrane Kit

2 Floor Membrane kit

It is essential to ensure your wetroom is correctly waterproofed.

Choose from either a Tilesafe or Floorsafe kit. Both kits comprise a Floor Membrane, Primer, Pre-formed corners and Reinforcing tape.

Wallsafe

Wall membrane

Reinforcing tape

Tilesafe (left) and Floorsafe (Right)

3 Wall Membrane & Reinforcing Tape

Use Wallsafe to waterproof the walls within and around the shower area.

Use Reinforcing tape for sealing critical Wall-Wall and Wall-Floor joints. Ensure the correct Tape is used with the appropriate Floor Membrane Kit.

For full details of Waterproofing for timber floors see page 197

Timber Floor - Duo Deck

Duo Deck (with 2-way fall)

The Duo Deck - 2 way fall

Features of a Duo Deck

- Two-way fall suited to large format tiles
- Designed for timber floors
- Lifetime Guarantee
- 22mm depth
- 9 Pre-formed sizes
- Flow rate up to 41 L/min
- Easily trimmed (up to 50mm from any side)

| No of traps | Flow rate up to |
|-------------|-----------------|
| 1 | 25 L/min |
| 2 | 41 L/min |

Features of the drain and trap

- Contemporary linear drain
- Variable waste position
- Available with two wastes
- Flow rate up to 41 L/min
- Multi-directional 50mm outlet, supplied with 50mm-42mm reducer
- Height adjustable grill

Drain and trap

Trim detail

Trim detail

Supplied with the Deck, the trim provides a stylish stainless steel finish detailing for the difference in tile heights where the Deck meets the remainder of the wetroom floor.

1

Select your **Duo Kit** and **Grill option**. Add additional trap if required.

Timber Floor - Quattro Deck

Quattro Deck (with 4-way fall)

Quattro Deck

Features of a Quattro Deck

- Four-way fall suited to mosaic tiles
- Designed for timber floors
- Lifetime Guarantee
- 22mm depth
- 8 Pre-formed sizes
- Easily trimmed (up to 50mm from any side)

Quattro Grill, Trap and Drain

Features of the drain and trap

- Traditional square drain
- Flow rate up to 27 L/min
- Multi-directional 50mm outlet, supplied with 50mm-42mm reducer
- Height adjustable grill

WET ROOMS

Timber Floor - Waterproofing

A guide to Waterproofing your wetroom

The importance of Waterproofing

The primary concern for anyone choosing to create a Wetroom is whether the floor or walls will either absorb, or worse let water through. Through our painstaking research and development we have created a system that is guaranteed, not just for a few years, but for life. The two components of this system are firstly the floor membrane and secondly the wall membrane, which are the key products for waterproofing the wetroom floor and walls.

We offer two self adhesive waterproof solutions for the floor membrane designed for use prior to the application of ceramic tiles and natural stone onto timber and solid floors in wetrooms:

- Tilesafe - the professional's choice for over 15 years, extensively used in both commercial and domestic sectors, is a cold-applied self adhesive membrane which consists of a thick rubberised bituminous waterproof layer incorporating a woven glass fibre mesh on one side. Tilesafe has been accredited as an anti-fracture/de-coupling membrane by the UKAS, which means that the effects of possible movement in a timber floor substrate, such as cracked tiles or

grout, are minimised. Tilesafe has been acoustically tested and rated according to BS EN ISO 140-8 and BS EN ISO 717-2 and will typically reduce sound transfer by 11dB.

- Floorsafe – developed as a light weight, easy-fit, domestic product, is a cold-applied self adhesive membrane which consists of a thin rubberised butyl waterproof layer with a fleece top surface.

For Walls we recommend Wallsafe:

- A flexible single application paint-on waterproofing membrane, applied to the wall surfaces prior to the application of ceramic tiles and/or natural stone in wetrooms.

Application

For timber floors we recommend that either floor membrane, Tilesafe or Floorsafe, is applied to the entire wetroom floor or at least to a distance of no less than 1 metre from the shower area. Wallsafe should then be applied to the walls of the shower area and overlapped onto the reinforcing tape.

2 & 3

Select your **Waterproofing** products

Floor Membrane Kits

Tilesafe 5m² Kit

500ml Primer, 10m Reinforcing Tape 5m x 1m Membrane
310ml Jointing Compound, 500g Putty
2 x Tilesafe Pre-formed Corners

Floorsafe 5m² Kit

500ml Primer, 10m Reinforcing Tape 5m x 1m Membrane
310ml Jointing Compound
2 x Pre-formed Corners

Tilesafe 10m² Kit

1ltr Primer, 15m Reinforcing Tape 10m x 1m Membrane
310ml Jointing Compound, 500g Putty
2 x Tilesafe Pre-formed Corners

Floorsafe 10m² Kit

1ltr Primer, 15m Reinforcing tape 10m x 1m Membrane
310ml Jointing Compound
2 x Pre-formed Corners

Choose from either Tilesafe or Floorsafe kits:

Tilesafe Kit offers the following features:

- Suitable for timber and solid floors
- De-Coupling & Acoustic insulation properties
- Heavy duty for Commercial and Domestic use
- Self-adhesive - quick and easy to apply
- Ready to tile immediately

Floorsafe Kit offers the following features:

- Suitable for timber and solid floors
- Self-adhesive - quick and easy to apply
- Ready to tile immediately

WET ROOMS

Four simple steps to order your Concrete Floor solution

Uno4 Drain

Linear Floor Drain Linear Wall Drain

1 | Drain and Grill

The gradient is formed within the screed, typically 12mm from the finished floor level to the drain.

All drains feature a multi-directional outlet for ease of installation.

Linear Drains are available with either Single or Double outlet depending on the flow rate required. Linear Drains are available in several lengths - see page 21 for details.

Choose either:

- Uno4 Drain - for a four-way fall
- Linear Floor Drain - for a two-way fall or
- Linear Wall Drain - for a one-way fall

2 | Trim - for Linear Drains only

For all Linear Drains it is important to order a trim detail to define the edge of the wetroom area.

Screedsafe

Concrete Floor Membrane Kit

3 | Floor Membrane Kit

It is essential to ensure your concrete floor wetroom is correctly waterproofed using a Screedsafe Floor Membrane Kit.

Wallsafe

Wall membrane

Reinforcing tape

Tilesafe Reinforcing Tape

4 | Wall Membrane & Reinforcing Tape

Use Wallsafe on the walls within and around the shower area. Use Reinforcing tape for sealing critical Wall-Wall and Wall-Floor joints.

Concrete Floor - Guidelines

The Novellini wetroom for solid floors explained

Floor build-up

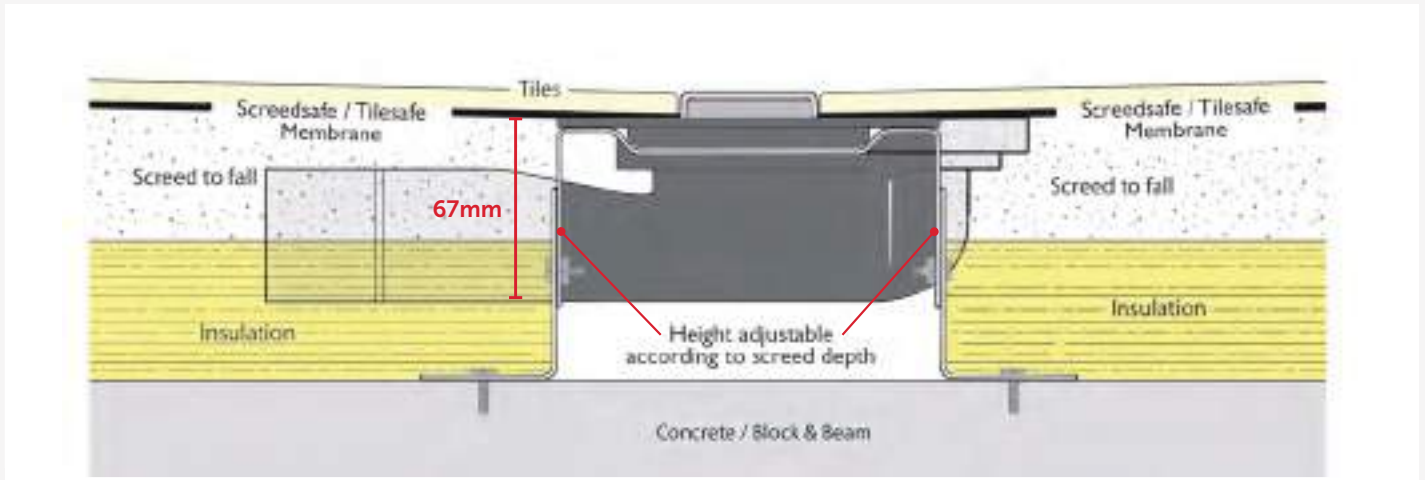

Our range of linear drains has been developed specifically for concrete or screeded floors and can be used on concrete slabs, planks and block and beam floors.

The key feature of the Linear Floor Drain is its height - the total height from the base to the top of the trough being only 67mm (see image below), making it perfect for today's modern construction methods.

The drain incorporates a unique 'waterless trap' which has a lifetime guarantee and has been granted BBA approval. For details see below.

Novellini Wetroom floor systems are suitable to be installed in combination with electric underfloor heating (max specification 150 watts/sq metre).

Typical solid floor build up

Waterless Trap (currently only available on linear drains)

All drains are available with one or two traps and a choice of stylish grill finishes. The trap has been specially designed with a spring loaded mechanism which keeps the trap sealed when not in use. This ensures

that even when left unused for prolonged periods the trap cannot dry out, making it ideal for situations where the shower is not in everyday use.

The smart design of the linear trough allows the waste position to be rotated through 360° enabling installation in most scenarios with ease.

Concrete Floor - Drains and Traps

Uno4 Drain - 4 way fall

Features of the Uno4 Drain

- Height adjustable drain body
- 360° Rotatable waste position
- Horizontal & vertical trap options
- Height adjustable grill
- Grill size 130mm x 130mm
- Lifetime Homes compatible

Linear Floor Drain - 2 way fall

Features of a Linear Floor Drain

- Height adjustable 67mm - 110mm
- BBA approved
- Lifetime Guarantee
- 360° rotatable waste position
- Waterless trap
- Flow rate up to 50 L/min
- Height adjustable grill
- Easy to clean and replace trap
- Bespoke design available
- Grill width 58mm

Linear Wall Drain - 1 way fall

Features of a Linear Wall Drain

- Height adjustable 67mm - 110mm
- BBA approved
- Lifetime Guarantee
- 360° rotatable waste position
- Waterless trap
- Flow rate up to 50 L/min
- Height adjustable grill
- Easy to clean and replace trap
- Bespoke design available
- Grill width 86mm

| No of traps | Flow rate up to |
|-------------|-----------------|
| 1 | 29 L/min |
| 2 | 50 L/min |

Features of the Drain and Trap

- BBA approved
- 360° rotatable waste position
- Easy to clean and replace trap
- No requirement to top up the trap during long periods of non-use
- No siphoning of the trap due to other appliances
- No chance of smells or gases entering the room
- Available with one or two traps

Concrete Floor - Waterproofing

A guide to Waterproofing your wetroom

The importance of Waterproofing

The primary concern for anyone choosing to create a wetroom is whether the floor or walls will either absorb, or worse let water through.

Through our painstaking research and development we have created a system that is guaranteed, not just for a few years, but for life.

The two components of this system are Screedsafe and Wallsafe - products for waterproofing the wetroom floor and walls.

Screedsafe is a self-adhesive waterproof membrane designed for use prior to the application of ceramic tiles, and natural stone onto concrete and screeded floors in wetrooms and other critical areas.

Screedsafe comprises a self-adhesive cold applied waterproof membrane which consists of a 1mm rubberised waterproof layer incorporating a woven fabric on one face.

Screedsafe is quick and easy to apply, providing a consistent waterproof layer that is guaranteed not to leak.

Wallsafe is a flexible coating for waterproofing wall surfaces prior to the application of ceramic tiles and/or natural stone in wetrooms and other critical areas.

Application

For solid floors we recommend that the Screedsafe membrane is applied to the shower area plus an additional one metre in either direction.

Wallsafe should then be applied to the walls of the shower area and overlapped onto the Reinforcing Tape.
