Premium Bathroom Televisions

ProofVision offer a range of televisions that incorporate state of the art technology.

The televisions are ideal for:

- 💧 Bathrooms
- 💧 Shower rooms
- 💧 Kitchens
- 💧 Swimming pool areas
- 💧 Spas and any areas where damp or water are an issue

All of the televisions are built to IP-65 degree of protection against water, the latest regulations in waterproofing and safety. Televisions can be fitted to the wall or fit flush within the wall to give that built-in look that really enhances the area.

Should you have any queries with regards to our products, please do not hesitate to contact our friendly customer service team who always strive to provide helpful service.

“Welcome to the ultimate accessory for gardens – The ProofVision outdoor TV!”

Electrikery's Richard Mather tells us.

BBQ's and relaxing with friends over a glass of wine or beer in the garden can prove to be a great way to relax and enjoy our outdoor spaces. There is always the potential however that people become fragmented; the big football match diverts people's attentions, regularly nipping inside to 'check the score', the iPod dock's power cable keeps tripping people up or runs out of battery! Now imagine a space where everyone is together, watching our Olympic heroes giving their all in full HD quality whilst the meat sizzles on the BBQ, the latest summer anthem playing in the background in superb clarity, with the guests wondering where this amazing sound is coming from.

Richard Mather, Technical Manager at Electrikery tells us about the installation, "We have worked extremely closely with outdoor and waterproof TV manufacturer ProofVision when undertaking this project, ensuring that the installation of the TV was as discrete as possible and the picture quality was as good as it could be. We undertook a detailed evaluation of different manufacturers when choosing the display with the TV from ProofVision having major benefits over it's rivals. It's been a great project thanks to the support we have received."
